1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 6, 7 and 9, drawn to a product.

Group II, claim(s) 13-15 and 25-27, drawn to a product.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The invention of group I is drawn to an interlayer which has plateau forming top surfaces on the convex portions not included in group II, while group II is drawn to an interlayer which contains segmenting walls in the trough like geometry of the concave portions not included in group I.

3. The examiner notes that the applicant refers to these two groups as groups II and III in the parent's restriction. However, a supplemental restriction, in the parent dated July 30, 2003, indicates that only two groups were in the parent case. This arose from the fact that a preliminary amendment was not entered in the parent until after the examiner did the original restriction. Therefore, group II is the only original group herein, and the claims of group I were added as per the original claims in the 371 PCT priority application.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1772

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
